market was excited all day with sentiment extremely nervous and unsettled, the morning being marked by apprehensions growing out of the rumored strength of the bull clique, which had been active yesterday. By 1 o'clock in the afternoon the ease with which prices broke seemed to convince many traders that the advance of 50 to 150 points from the low records of Monday had raised the market to a level of normalcy. Corn and grain were 2 to 6 points higher on later months. August, 5.42 1/2 to 55; September, 5.50 1/2 to 51; October, 5.61 1/2 to 55. November, 5.52 1/2 to 53; December, 5.54 1/2 to 55. Grade crude, nominal; do. summer yellow, 6.45 to 6.50; do. winter yellow, 5.50 to 5.55; do. summer white, 5.70 to 6.00.

Chicago, Aug. 4.—New investment  
trading made a broad market to-day in

that reports on serious damage to crops in  
Russia had been confirmed and that there  
was truth also in the story of a black rust  
in the Canadian Northwest. Closing figures  
were steady, 4 1/2 cts. to 15 1/2 cts. higher than  
last night. Latest trading left corn 3/4 cts.

market. The clique of leading bulls at all times were complete masters of the situation. Crop news continued favorable, and even very bullish from most sources. The cotton in Louisiana reported the first bale of the new crop. The movement of new cotton in Texas reached record-breaking proportions, but the trade had no ear for anything but news and gossip that pointed to higher prices. In the afternoon session bulls were heavy. Profits were realized and the leading bulls were the heaviest sellers. The market was excited and nervous. Later in the year, if plans for the meeting of the officers will be held and an association formed. The matter is already under the consideration of the committee.
